

IB200

- ❖ **Bottles your products at the ideal carbonation and temperature.**
- ❖ Refrigerate and bottle **5-8 batches per day.**
- ❖ Double door, front loading refrigerated unit.
- ❖ Holds four 55-litre tanks.
- ❖ **Carbonates beer, champagne, ciders and sparkling juices.**

This unit is your solution for a standalone dispensing station. Four 55-litre tanks are easy to load into the unit. The two-stage tap purges the bottle with C02 before the product is dispensed, resulting in a consistent, high-quality end product. Assembled on location.
